Subject: Cleanup may be bad for polluting jobs but good for wildlife and human health

Portland's blue-collar harbor jobs will suffer if the cleanup plan is too expensive, but money is not the issue. It is many of those blue-collar jobs that have put this river on the list.

I am all for a clean river. We all enjoy visiting the parks and trails near the Willamette. I also know when healthy and clean that the river helps produce millions in wages and sales for people and companies in the Portland area. Please be sure that your plan is good for them, too.

Please consider all the facts and support a plan that protects local quality of life and worry less about people having to find new jobs.

Sincerely,
